

Penetration Testing Project

Mediroza General Hospital

Batch B083 | Week 4

Target: <https://medirozahospital.com>

CLIENT

Mediroza General Hospital

TYPE

Black-box Pentest

DURATION

5 Days

This project is conducted in a controlled environment for educational purposes only. These techniques must never be applied to any system without explicit written permission from the owner.

Project Detail

Project Type

Penetration Testing & Vulnerability Assessment

Client Name

Mediroza General Hospital

Target

<https://medirozahospital.com>

Scope

Full black-box penetration test. Identify vulnerabilities, exploit them to demonstrate real impact, and document all findings in a professional report.

Rules

Testing limited to the target domain only. No social engineering. No denial of service. No testing outside agreed scope.

Authorization

The client has provided written authorisation to conduct security testing on their web infrastructure.

Timeline

5 days. Work independently. Do not discuss findings with other participants until the reveal session.

Project Milestones — Overview

M1

Initial Access

Attack the website and retrieve 3 confidential patient PDF lab reports.

M2

Data Extraction

Crack the encryption on all 3 retrieved files.

M3

Attack (cracking)

Find staff salaries and shareholder details of the hospital.

M4

Pentest Report

Write a professional penetration testing report for the client.

M1

Milestone 1

Attack the website and find the 3 confidential PDF lab reports of patients

✓ Written Permission: GRANTED

HINTS

- Conduct reconnaissance on the target.
- Identify exposed entry points.
- Analyse the behaviour of any authentication mechanisms you find.
- Look for weaknesses in how the application handles user input.
- Gain unauthorised access to a restricted area of the site.

DELIVERABLE

Proof of access and the 3 retrieved PDF files.

M2

Milestone 2

Crack the encryption on all 3 retrieved files

✓ Written Permission: GRANTED

HINTS

- Analyse the encryption on each file.
- Select appropriate tools and wordlists to recover the contents.
- Do not assume a single approach will work for all 3 files.
- Think carefully when one method fails and try another.

DELIVERABLE

Recovered contents of all 3 files with proof of successful access.

M3

Milestone 3

Find the critical data exposure on the client server

✓ Written Permission: GRANTED

HINTS

- Conduct a thorough analysis of everything retrieved so far.
- Look beyond the obvious content — examine all file properties carefully.
- One finding will point to a further critical exposure on the server.
- AI tools are permitted and encouraged for data analysis and reporting.

TASKS

- Find the salaries of all hospital employees.
- Find the shareholder details of the hospital.

DELIVERABLE

Full documented evidence of the exposure and a readable summary of the confidential data uncovered.

M4

Milestone 4

Write your detailed Penetration Testing Report

REPORT STRUCTURE

01

Executive Summary

A concise overview of the engagement, key findings and overall risk to the client.

02

Scope and Methodology

Target, tools used, approach taken and any limitations encountered.

03

Findings and Proof of Exploitation

Each vulnerability with screenshots and evidence for every milestone.

04

Risk Rating

Rate each vulnerability: Critical, High, Medium or Low with justification.

05

Recommendations and Remediation

Actionable steps the client should take to fix each identified issue.

DELIVERABLE

A complete professional penetration testing report submitted to your instructor.

Thank You
